## **VersatileSecureIntelligentAutomated**

## Critical capabilities for business communications.

Standard 50-Sheet Automatic Reversing Document Feeder Conveniently handle one- and two-sided originals up to 8.5" x 14" in size.

**Scan-to-Media (Optional)** Take scanned documents with you in seconds on a USB drive or SD card.

**Legal-Size Platen** Accommodate documents up to 8.5" x 14" with ease.

Accessibility Handle (Optional) Make it easy for any user to open and close the standard paper tray.

**Storage Cabinet (Optional)** Keep supplies ready for quick replacement in one of two optional storage cabinets.

Control Panel Gain access to all system capabilities in seconds.

**Standard 100-Sheet Bypass Tray** Take advantage of a wide range of paper sizes and types.

**Standard 250-Sheet Paper Bank** Start with an ample supply of paper.

**500-Sheet Paper Bank (Optional)** Accommodate sizes up to 8.5" x 14" and increase paper capacity to 850 sheets—or add two 500-Sheet Paper Banks to reach the maximum of 1,350 sheets.

#### DataOverwriteSecurity System (DOSS) with the Hard Drive Option

Automatically overwrite the hard drive after every job or overwrite the entire hard drive at the end of the system's useful life or when changing locations for added security.

## Ricoh Aficio MP 201SPF

Make fast work of all your document-related tasks. Efficiently sharing documents and other information is critical in any size organization. Finding smart, new ways to manage print, copy, scan and fax output can significantly reduce costs and improve the speed and agility of your business. The RICOH® Aficio® MP 201SPF Digital Imaging System offers a variety of standard and optional management tools that give you greater control over document-related processes. Security features such as hard drive overwriting, encryption and user authentication—provide multiple levels of protection for important documents and data. While it features a

compact design, the MP 201SPF also packs the multifunctional power and fast 21 pages-per-minute (LTR) output you need to minimize cost and maximize productivity.

## IntelligenceEfficiencyConfidenceValue

## **Drive Overall Efficiency**

We designed the Ricoh Aficio MP 201SPF Digital Imaging System specifically to deliver the next level in speed, reliability and security—even in the most demanding work environments.

- Finish jobs quickly and efficiently with reliable output of up to 21 pages-per-minute (LTR), automatic duplexing and an easy-to-read four-line LCD control panel.
- Capitalize on the system's true flexibility. Keep 8.5" x 11" paper in the standard tray and 8.5" x 14" or specialty stocks in the optional trays.
- Copy, scan and fax catalogs, brochures, booklets and other oversized documents on the 8.5" x 14" platen.
- Keep operations running smoothly with minimal interruptions for paper replenishment. The Ricoh Aficio MP 201SPF holds up to 1,350 sheets so you can run longer jobs without pausing.
- Simplify printing of PDF or JPEG attachments. Just send an e-mail directly to the system using the Mail-to-Print feature and print attachments instantly.

## **Safeguard Documents and Data**

### The Ricoh Aficio MP 201SPF Digital Imaging System offers multiple security features that allow you to protect printed documents, electronic data, passwords and directories.

- Utilize the hard drive option and prevent unauthorized users from retrieving and printing critical documents with the built-in DataOverwriteSecurity System (DOSS) feature. This capability automatically overwrites the hard drive after every job. A Hard Disk Drive (HDD) Encryption feature further protects valuable data, even if the hard drive is stolen.
- Restrict access to devices or specific features—such as document scanning with LDAP authentication or optional Ricoh Card Authentication Package. These features provide a proven solution for identifying users and controlling who accesses documents or data.
- Minimize the threat of unauthorized users printing and reading confidential documents with optional Ricoh Enhanced Locked Print. This feature requires users to enter a password before files are released for output. It also deletes the file automatically from the MFP's hard drive.
- Protect against the threat of wiretapping with encrypted PDF transmission. PDF data is automatically encrypted prior to transmission via Scan-to-Email and Scan-to-Folder.

## **Timesaving Management Tools**

### Control key functions of the Ricoh Aficio MP 201SPF remotely and manage document workflow from your desktop with easy-to-use utilities.

- Use the Classification Code feature to allocate print jobs to specific job numbers, clients, workgroups or projects. This allows for accurate and timely charge-backs.
- Manage system settings, print job status and supply levels—and perform a host of other administrative tasks remotely with Web Image Monitor.
- View activity and control the output of multiple networked Ricoh systems with our unique Web SmartDeviceMonitor.
- Replace the time and effort associated with manual meter data submissions with the automated simplicity of Ricoh @Remote Intelligent Device Management System.
- Create customized applications or integrate existing software with an easy-to-use Software Development Kit (SDK). Use this kit to automate processes, optimize workflow or add accountability and efficiency to your network.

Reduce costs and minimize paper waste with standard automatic two-sided (duplex) output.

Receive incoming faxes at a specified e-mail address or send them to a folder and make critical documents accessible almost anywhere.

Make any document portable with the easy and convenient Scan-to-Media option.

## **CopyPrintScanFax**

## **Streamline Your Faxing**

Discover a new world of communication options with today's advanced fax technologies. The Ricoh Aficio MP 201SPF provides powerful tools for highly efficient fax communications.

- Speed communications and minimize phone line costs with a Super G3 fax modem that transmits each page in just two seconds.
- Send incoming faxes to selected e-mail addresses, so users can receive and review documents from any computer, even if they are away from the office.
- Minimize fax communication costs with advanced IP (T.38) faxing which transmits fax documents instantly over IP networks—or with Internet (T.37) faxing.
- Save time and cut costs by sending fax documents to any destination without leaving your desk using a productive LAN faxing feature.

## **Simplify Document Scanning**

# Scan a wide range of full-color documents, including brochures, photos, presentations, catalogs, business cards and more.

- Save time and money by skipping overnight delivery services and distributing full-color documents to individuals via Scan-to-Email or to network folders via Scan-to-Folder.
- Create portable electronic documents from hard copies in seconds with the Scan-to-Media option, which loads scanned files directly to a USB drive or SD card.
- Send faxes and e-mails faster by retrieving numbers and addresses directly from your corporate address book with LDAP support.
- Add optional Ricoh GlobalScan NX software for advanced scanning capabilities, including workflow automation and integration with Enterprise Document Management (EDM) systems.

### **Build Your Network**

The Ricoh Aficio MP 201SPF Digital Imaging System offers seamless integration with a wide range of stand-alone and networked environments. Broad compatibility ensures fast installation and maximum uptime.

- Accommodate a wider range of print streams with PCL5e/6, support for XPS and genuine Adobe® PostScript®3™, now standard.
- Provide an efficient multifunction solution for offices with varying networking requirements. The system integrates seamlessly in Windows, Macintosh or UNIX environments with standard 10Base-T/ 100Base-TX Ethernet and USB 2.0 interfaces, as well as optional Gigabit Ethernet, IEEE 802.11a/b/g and IEEE 1284 interfaces.
- Print PDFs without opening each file in Adobe® Acrobat® with PDF Direct Print. This minimizes wait times and alleviates network congestion.

## The Total Green Office Solution

Ricoh continues its long-standing commitment to developing office solutions with environmentally friendly and superior energy- and supply-saving features, without compromising productivity.
